This Book Belongs to A —

The image features a black background with several thick, white, curved lines that sweep across the frame from the top left towards the bottom right. These lines create a sense of motion and depth. Your Goal The Sky
Your Aim The Star

Everybody is a star! Every student at Stivers High School, if not at this very moment, will some day emerge as a star, and that star we are speaking of does not necessarily have to be in the movies.

You may choose to be a rising star, a falling star, an evening or morning star, but whatever kind of star you are, be the best little star.

In order to be the star of your choice you must set a goal and to achieve that goal you must have an ambition to shine; a desire to elevate yourself and a hope for a brighter future.

So to the class of '73 set your ambitions high like the four great faces which grace the front of our "grand ole building." Be steadfast in all of your endeavors, enter the future with an open mind, think before you speak, and when you speak, speak the truth.

And finally, whatever kind of star you become be the best star that Stivers has ever had wherever you are.

STAR SONG

When sunset flows into golden glows
And the breath of the night is new,
Love, find afar eve's eager star -
That is my thought of you.

O tear-wet eye that scans the sky
Your lonely lattice through:
Choose any one, from sun to sun -
That is my thought of you.

And when you wake at the morning's break
To rival rose and dew,
The star that stays till the leaping rays -
That is my thought of you.

Ay, though by day they seem away
Beyond or cloud or blue,
From dawn to night unquenched their light -
As are my thoughts of you.

KEEP SMILING

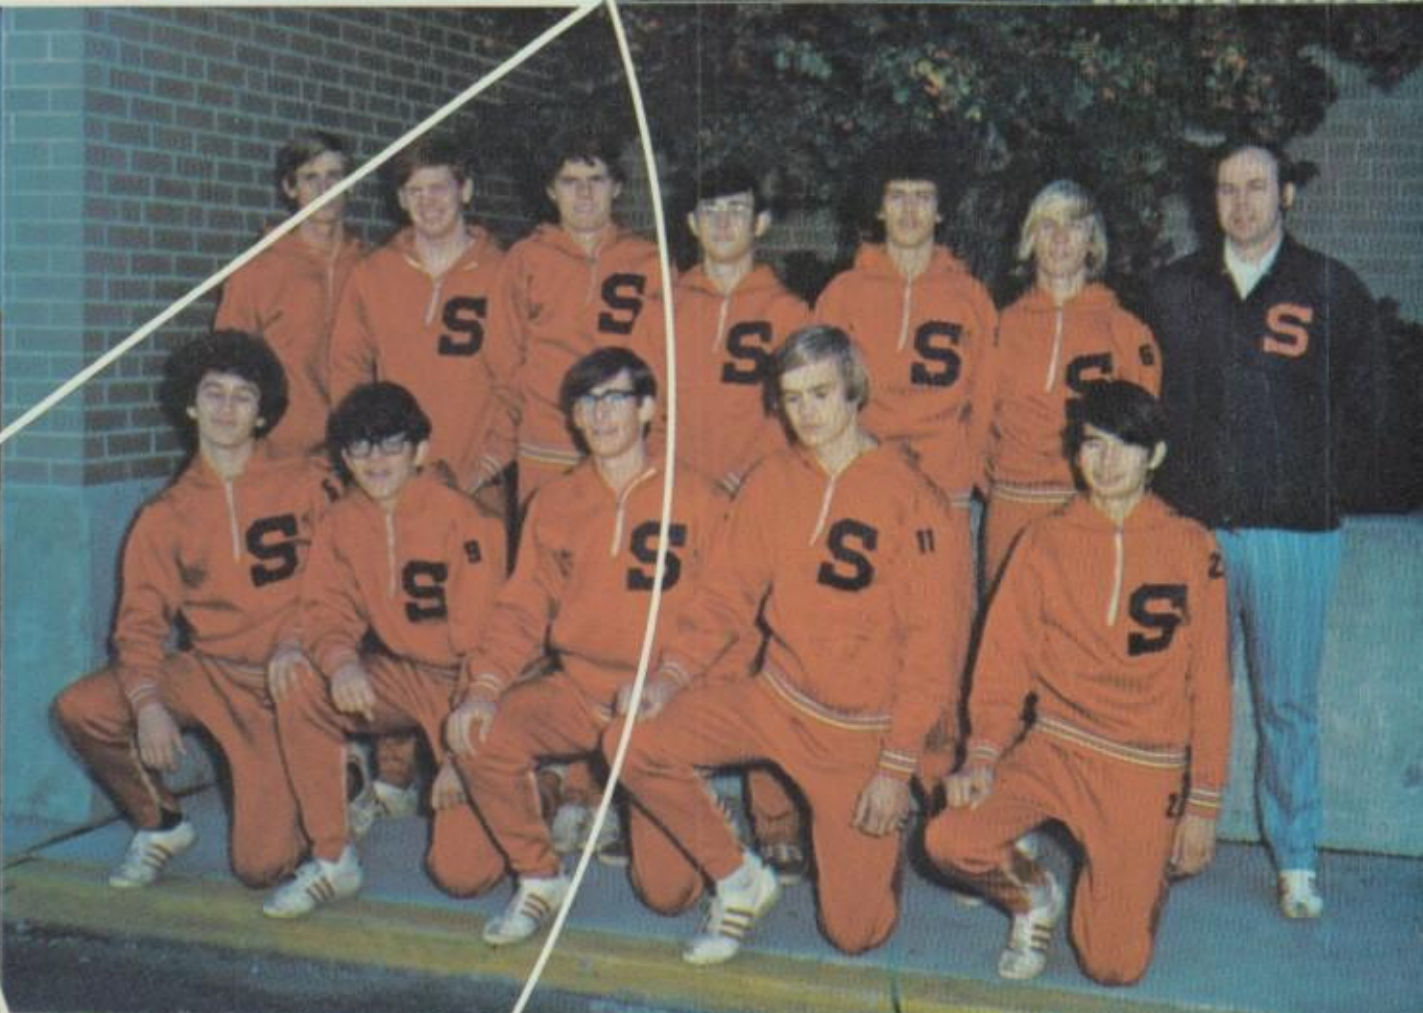

If it's raining, keep on smiling; Give the world the largest part of the gladness in your nature and the sunshine in your heart.

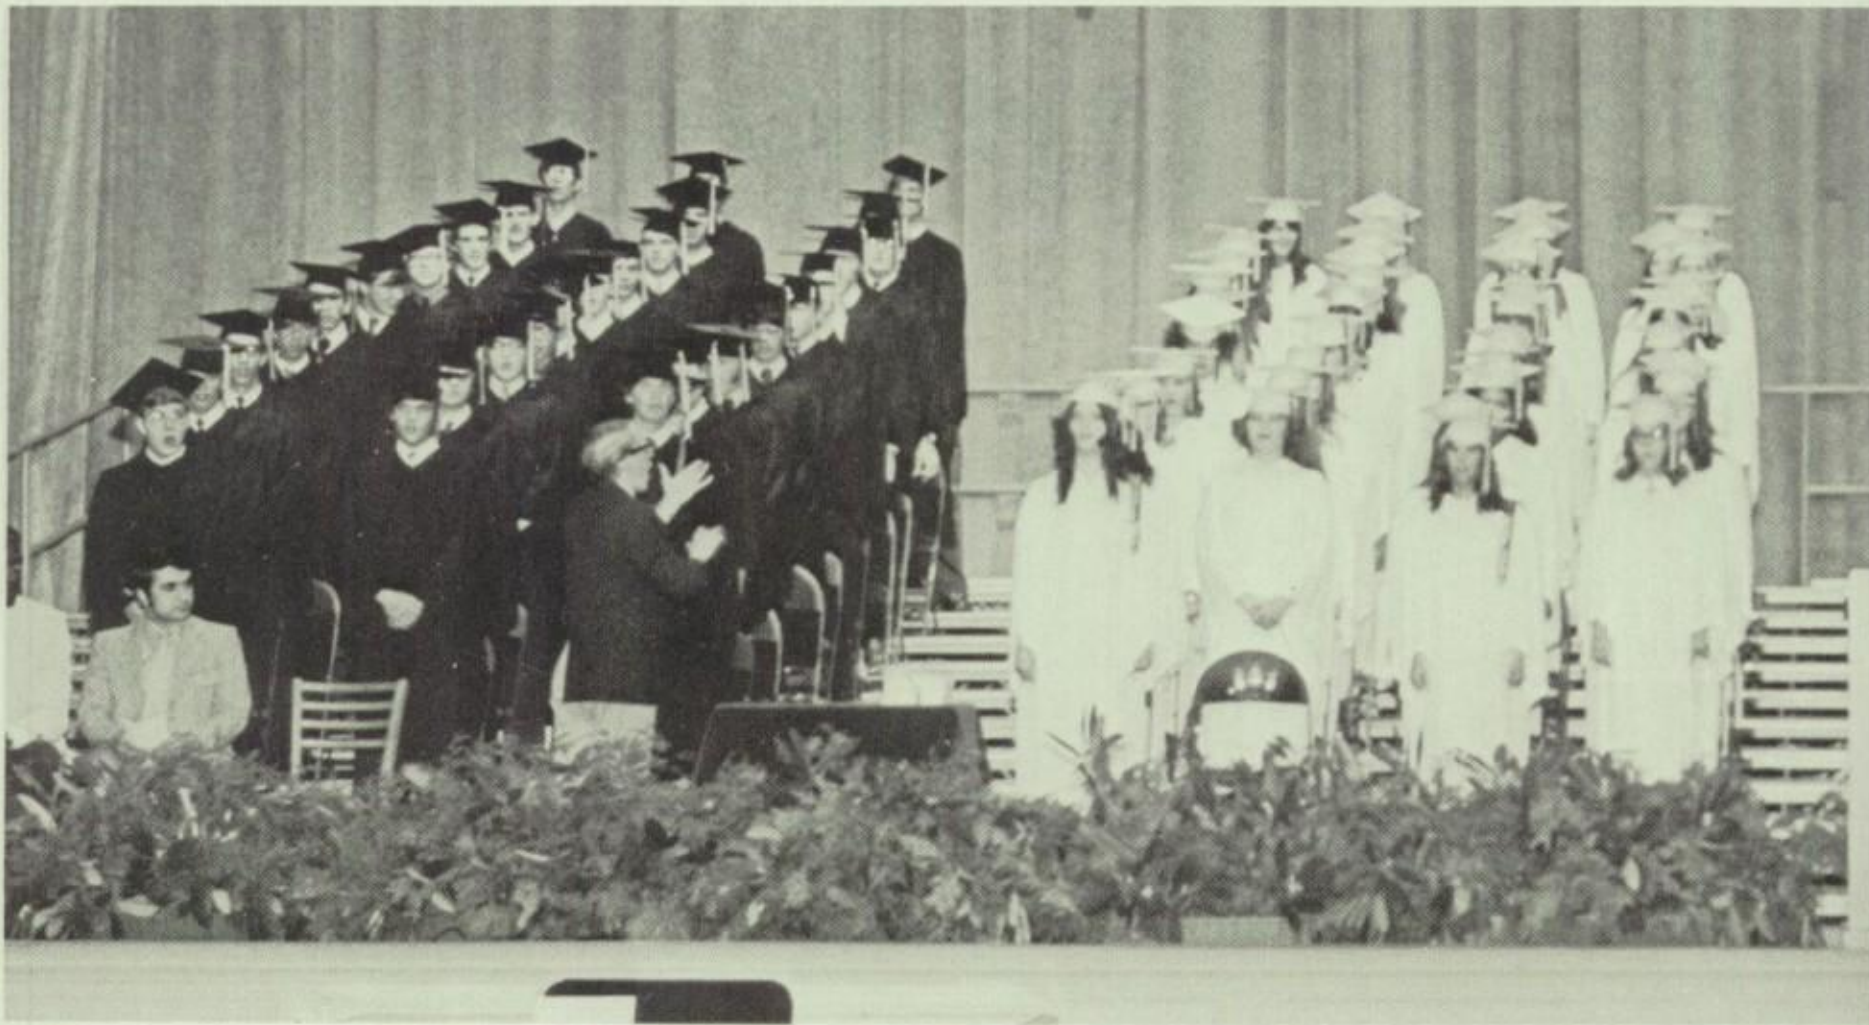

Life is just a big reflection; If we give the best we know how, We will some day reap in happiness the sunshine that we show.
